Making a Difference

CONSTRAINTS —

# ASSUMPTIONS

**RISK?** JUST TALKING ABOUT IT IS **SCARY**

# IMPACT OF RISK ON OUR PROFESSIONAL LIFE

John's project is dependent on Project B to be in production by the end of the month. John overheard one of the infrastructure technicians stating that the servers needed would not be available in time and the software they are going to install has not been approved by I/S security. What will they do...

- A. Ask Project B's Project manager if the rumor was true
- B. Ignore it because he needs to stay focused on his project
- C. Follow his mitigation plan developed in the case this risk was triggered.

# IMPACT OF RISK ON OUR PERSONAL LIFE

Tried to loose weight before and gained even more back. What if that happens again?

Wanted to start a new hobby of fixing up old cars but what if I can't find the time or money to complete it.

Always wanted to play the piano but what if I just don't have the ear for notes.

# RISK IDENTIFICATION

Here's your options:

Discover risk early and come up with a mitigation strategy to manage it.

Or

Wait and take your chances that the risk will become a reality.

## 2 PARTS OF RISK

## PLANNING FOR RISK

Responses:

Mitigate

Avoid

Transfer

Accept

# COST OF RISK - QUANTITATIVE

What is the cost of a mitigation strategy?

Is the impact of the risk great enough to invest in a contingency?

ex: pay for training to get your pmp certification.

# WHAT WOULD YOUR LIFE BE LIKE IF YOU DON'T TRY?

Chances of  
failing is  
100%  
If you don't  
try.

# BUILD CONFIDENCE — ACHIEVE GOALS

Planning for your next Dream come true takes all the intention as any other project in your life.

- ♥ Challenge yourself to be the self you dreamed of at 5... or 25
- ♥ Do something you dreamed when you were 10 or 30
- ♥ Go where your dreams take you...

♥ Never stop dreaming
